DIGITAL PALESTINE

Graphic Content Policy

Version: 2.0
Effective Date: 1 November 2026
Last Updated: 1 November 2026
Applies To: All members worldwide

What graphic content we keep, and what we remove

> **In short**
> Digital Palestine keeps graphic material that documents real events, because removing it can erase evidence. We remove graphic material that is shared to glorify, celebrate or encourage violence, or only to shock.

1. WHY WE ALLOW GRAPHIC CONTENT

1.1 Members use Digital Palestine to document and preserve what happens to their families and communities. Some of that record is violent and distressing. Removing it would mean losing evidence of real events, so our starting point is to keep it rather than delete it.

1.2 This policy sits alongside the Community Communication & Ethics Charter, which sets out what is and is not allowed, and the Moderation Policy, which explains how we enforce it.

2. WHAT GRAPHIC CONTENT MAY STAY UP

2.1 Graphic images and video that document real events may stay on Digital Palestine even when they show, for example, the following. These examples are not a complete list.

- serious injury, bloodshed or visible wounds;
- dead bodies or human remains;
- violence in progress, including attacks, shootings and explosions;
- the immediate aftermath of attacks, including destroyed homes with casualties;
- graphic medical situations.

2.2 Sharing this kind of material to document real events does not break our rules, and the person who posted it is not punished for it.

3. WHAT WE REMOVE

3.1 Some graphic content is removed. This includes, but is not limited to:

- content that celebrates, glorifies or mocks death, injury or suffering;
- content shared to encourage or threaten further violence;
- graphic content with no documentary, news or public-interest purpose, shared only to shock;
- images of sexual violence;
- any image of a child that is sexual in any way, which is covered by the Child Protection Policy and always removed.

4. WHO DECIDES

4.1 Posts are checked when they are shared, using automated screening supported by our moderators. Members can also report content they believe should be removed. The decision to remove a post is ours, not that of the person who posted it.

4.2 Automated screening makes mistakes. If you think a post should have been removed, report it and we will review it. If your own post was removed and you disagree, you can appeal as set out in the Moderation Policy.

5. ADULTS ONLY

5.1 Digital Palestine is only for people aged 18 and over, and everyone's age is checked when they sign up.

6. RESPECT FOR THE PEOPLE SHOWN

6.1 We ask members to share graphic material with care for the dignity of the people in it. If an image shows a member of your family who has been killed or injured and you want it removed, contact us at support@digitalpalestine.com. We will consider every request, weighing it against the value of the material as a record of events.

7. CHANGES

7.1 We will update this policy as Digital Palestine and the law develop, and tell members about significant changes.
